HOOKS WILL BE RETURNED TO NEW HAVEN CARS

All to Be Provided With Hooks to Hold Passengers' Wearing Apparel.

No passenger car on the New Haven system will be without hooks to hold he wearing apparel of travelers, according to a decision reached by representatives of the New York, New Haven and Hartford Railroad company who appeared before the public utilities commission. Action to have all coaches provided with hooks to hold clothing was recently taken by the commission when it summoned the agents of the road to give their reasons for removing the holders from the racks above the car windows.

The commissioners discovered that the hooks disappeared from the cars at the time that advertisements were nserted in the space running along the ars over the windows. Representa-ives of the railroad said that in order

sulted in a long discussion, during which agents of the company were impressed with the fact that the travelers needed the hooks and would not be at east until they had them. The commissioners were told that the hooks had to be removed to make way for the march of advertising, but if the passengers suffered the railroad agents believed that it would be ad-visable to replace the hooks.

The railroad representatives told the

commissioners that the hooks would be replaced immediately. The com-missioners found that the advertise-ments placed in the cars covered cer-tain spaces over the windows and al-lowed a large amount of dust to col-lect. It was suggested to the railroad representatives that this was unsani-tary and that a new system of insertlary and that a new eystem of insert-ing the advertising cards in the cars, would help matters along. The New Haven road men said that the trouble would be remedied and the hooks screwed into their accustomed places.
